Commercial and Industrial Acceptances (CIA) is recognised yet again at the 2011 Financial Intermediaries Association (FIA) Awards

The 09th of June marked the annual FIA Awards Ceremony, which acknowledges those market players who have succeeded over the past year within specific insurance sectors locally. At this year's event, CIA, a Compass Insurance underwriting agency specialising in the insurance of buildings, won the award for Underwriting Manager of the Year 2011, for the second consecutive year in a row.

Paul Carragher, Managing Director at Compass Insurance, says; "We are very excited about this award as it is certainly a continued reflection of Compass Insurance's ability to deliver sustainable and concrete underwriting processes to the market through agencies that are not only highly experienced, but understand the markets in which they operate. Congratulations to CIA on their well deserved recognition."

Furthermore, MUA, a Compass Insurance underwriting agency specialising in the insurance of high net worth individuals was also nominated in the Underwriting Manager of the year category at the FIA awards for 2011.

"It is a huge achievement for Compass Insurance to have two of our agencies nominated for this award, given the fact that there are a number of niche underwriting providers in South Africa that fulfil this need very professionally." concludes Carragher.
